

A mathematical equation is presented using fruit icons. It consists of three cherries, followed by a plus sign, another cherry, a plus sign, a raspberry, a plus sign, and a final cherry, followed by an equals sign and the number 5. The cherries are simple line drawings with stems, while the raspberry is a more detailed drawing showing its characteristic bumpy texture and leaves.

$$\text{Cherry} + \text{Cherry} + \text{Raspberry} + \text{Cherry} = 5$$
